

# Coffe Lover Project:

Try recreate this website using bootstrap 4. Check the lib on [W3schools](https://www.w3schools.com/) or simply check bootstrap home page. You dont need the exact pictures i used. Feel free to download your own.

And when you are done with that you can try to do the sign-up/landing page.

Here is a pluralsight video to watch before you start or simply check the recorded video from this morning.

<https://app.pluralsight.com/library/courses/bootstrap-getting-started/table-of-contents>

Good luck! 😊
